Preface

The Textiles Committee has been providing valuable databases on different facets of T&C industry to the industry stakeholders and policy makers for deriving well informed policy decision & business strategy. Due to the onslaught of RTA, FTA & Multilateral Trade Agreements under the framework of WTO, the competition among the textile exporting countries has also been growing giving rise to challenges in the form of price and quality competitiveness. To deal with the situation successfully countries, may require comprehensive product wise database on production, export, import, cost competitiveness etc.

In order to support the trade & industry through analysis and dissemination, the Textiles committee is preparing a comprehensive database on the different facets of the textiles sector like production, demand, exports, cost of production, tariffs etc. , through Market Intelligence in Textiles (MIT).

This discussion paper "Export Competitiveness of Combed Cotton Content HS 520523: (85% 25.41-30.73)" attempts to delineate the global players in this product through their global exports, imports vis-e-vis India. Efforts are made to present the information in user friendly format. I hope this paper will be useful to the readers and help in understanding the international trade in Cotton Yarn (HS 520523) in a better way. The valued suggestions and comments from the readers are welcome.

I appreciate the efforts put in by Shri T.K Rout, Deputy Director, Ms Deepti Lahane, Research Associate and the team of researcher who have been instrumental to bring out this data base series.

I. Introduction

- The product 520523 belongs to the combed cotton yarn segment having cotton content more than 85% and a count of 25.41-30.73. It has a percentage share of 9.06% in total cotton yarn imports in the world.
- The total export value of this product in the world is 1691.23 Mn USD (2012) and the total import value is 1084 Mn USD (2012). India is the leading exporter of this product in the world with an export value of 847.84 Mn USD (2012) and a market share of 50.13%. United States stands at number 2 position with an export value of 158.20 Mn USD (2012) and a market share of 9.35%.

II. Objective

1. To understand the importance of 520523 in world cotton yarn trade.
2. To study the performance of top exporters and top importers of 520523 in the world.
3. To study the performance of top exporters in top import markets.
4. To find out target countries for export of 520523 in terms of volume and growth of market.

III. Methodology

- To fulfil the above objectives, we will consider the parameters of CAGR, % Share, RCA and UVR. The period taken into consideration is from 2004-2012.
- The data has been collected from various secondary sources like WITS, Ministry of Textiles, and Office of Textile Commissioner etc.
- The generated tables have been illustrated through the help of graphs/pie-charts/histograms wherever required.

IV. Limitations

- The sources of data are limited to secondary sources of collection like internet, international trade data websites, published reports etc. Therefore the accuracy of the report depends on the data collected from the secondary sources.
- There are only two sites available for export import data in international trade - WITS and ITC, Geneva. There is no other available source to validate the data collected from these sites. Hence, we have assumed that the export import figures as reported by these two websites are genuine and correct.
- The export import data collected from these websites show a significant gap, as in the export figure reported by the exporting country is not equal to the import figure reported by the importing country. Due to such differences, it is difficult to estimate the actual growth in exports/imports.
- Also, some of the data are missing for certain countries which do not allow us to present a clear trade picture.
