TC MARKET/ COUNTRY REPORT

Japan Market Watch

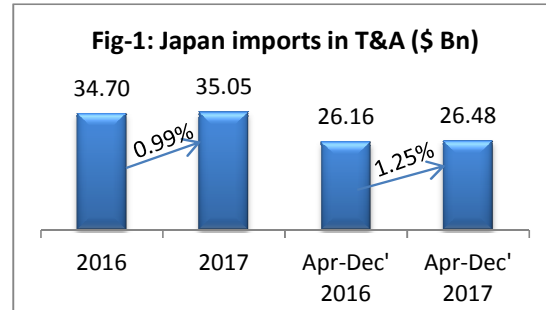

Textiles Committee
Government of India

Japan Market Watch (Apr-Dec, 2017)

1.0 Introduction:

Japan is third largest importer of Textiles & Apparel (T&A) in World after EU and USA with an import of \$ 35.05 Billion during 2017. Being the third largest importer, Japan has always attracted the attention of the major textile and apparel exporters

including India. Even if, Japanese import of T&A has decreased by 3.09% CAGR during last five years (2013-2017), it has grown by 0.99% in 2017 as compared to previous year and reached to \$35.05 bn from \$34.70 bn.

The major chunk of the import is on account of apparel alone, accounting to \$26.37 bn in 2017 which is almost 7 per cent of the global apparel import.

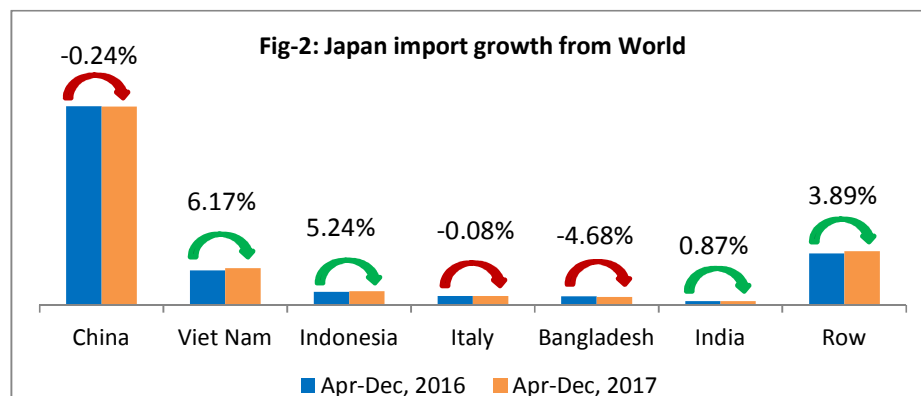

India is the ninth largest exporter of apparel to Japan with a share of about 0.87 per cent in the total apparel import basket. Even after signing a Comprehensive Economic Partnership (CEPA) agreement with Japan in 2011 for facilitating better trade flow between the countries including in textiles and apparels, its export growth is quite meager. Countries like China are outperforming India in this important market even if the tariff rate available to India is zero for most of the product lines.

In view of the fact that Japan is a major market in T&A we have entered into a bi-lateral agreement with Japan, offering zero tariff market access to the our products. It is imperative to understand why our exports are lagging. Therefore, an effort is being made in this paper to study the month wise trend and composition of T& A export to Japan both at macro and micro level so as to facilitate proper decision making/business strategy at the level of government and trade & industry. The major highlights of the Market Report are as follows:

2.0 Japan as an export destination (Apr-Dec, 2017):

- Japan's T&A import from the rest of world was \$ 26.48 Bn in Apr-Dec, 2017. The major chapters contributed to the basket are Chapter-62 (Woven apparel) with a share of 38.27% and Chapter-61 (Knitted apparel) with 36.70% during the period. These two chapters alone contributed \$ 19.85 Bn (74.97%) during Apr-Dec, 2017 with a growth rate of 0.58% during the period as compared to the same period previous year.
- The import of textiles including made-ups (Chapter 50 to 60 & 63) contributed \$6.63 Bn (25.03%) with a growth of 3.03% during the period as compared to the same period of previous year. Among textile & made-ups, chapter-63 (Other made-ups textiles articles), chapter-56 (Wedding, twine, cordage, ropes & Cables) and chapter-54 (Manmade filaments) have contributed significantly with 15.87% share.
- Among the competing countries, China is the leading exporter with \$16.29 Bn of export with 61.52 percent share followed by Vietnam \$3.01 Bn (11.37%), Indonesia \$1.11 Bn (4.18%), Italy \$0.72 Bn (2.73%) and Bangladesh \$0.65 Bn (2.47%) during Apr-Dec, 2017. It is important to mention that While Chinese export has shown negative growth of 0.24% during the period as compared to previous year, export growth of other countries was 6.17%, 5.24%, -0.08% and -4.68% respectively during the period as compared to previous year. Hence, Vietnam's export of T&A has experienced a robust growth during the period as Vietnam has experienced duty free access under Vietnam-Japan FTA and ASEAN-Japan FTA.
- India stands at 12th position with \$0.29 Bn of export with 1.10% share and India's export has grown by 0.87% during the period as compared to previous year.

Textiles Committee Market / Country Report

(April-December, 2017)

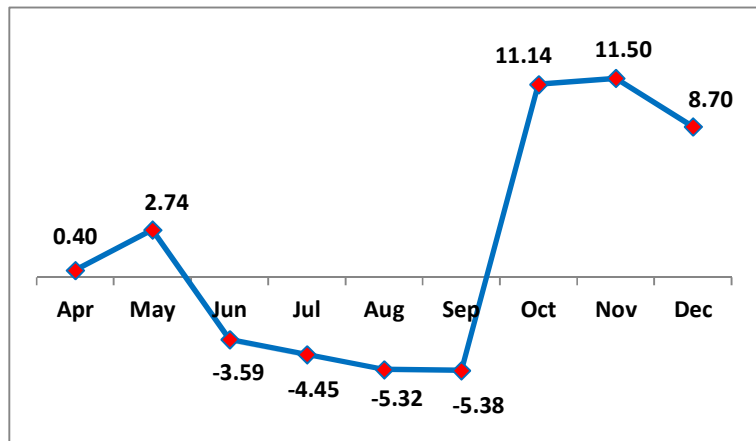

Month wise Tend of Japan import from World in T&A

Fig 3:
Change in the exports

- Japan had signed Economic Partnership Agreements (EPAs)/ Free Trade Agreement (FTA)/ Comprehensive Economic Partnership Agreement (CEPA) with 14 countries: Australia, Brunei, Chile, India, Indonesia, Malaysia, Mexico, Mongolia, Peru, Philippines, Singapore, Switzerland, Thailand, Vietnam, ASEAN and TPP. EPAs or Free Trade Agreements are currently under negotiation are Japan-China-Republic of Korea (South Korea), Japan-EU, Japan-Turkey.
- As Bangladesh comes under LDC countries, Bangladesh is enjoying duty free and quota free market access in Japanese market under Generalized System of Preferences (GSP) Scheme of Japan and Bangladesh. Japan's GSP started on August 1, 1971, and the current scheme is effective until March 31, 2021. The scheme covers duty free and quota free market access in Japan in 1970 Textiles and Apparels products at 9-digit HS level for LDC countries.

2.1 Product level Performance:

- Japanese import basket is mainly dominated by few T&A products. Out of 1543 products (more than \$0.01 Mn) at 9-digit HS level imported by Japan during Apr-Dec, 2017 and only 23 products (more than 1% share) have contributed 38.13 % to the basket.

Textiles Committee Market / Country Report

(April-December, 2017)

Out of these 23 products, top 5 products alone contributed \$3.34 Bn during Apr-Dec, 2017 and totaling top 5 products saw a positive growth of 3.66% during the period as compared to same period during 2016. A detailed product wise trend is enclosed in Annexure-1.

2.1.1 Top Performing Products in Japan market (Apr-Dec, 2017):

Out of these 23 important products, the export growth of 14 products has experienced positive growth. Top 14 positing growth products contributed \$6.35 Bn to Japanese import basket.

Table-2: Top performing products having positive growth in Japanese market (Mn\$)

| Products | Descriptions | Apr-Dec, 2016 | Apr-Dec, 2017 | %Change |

Textiles Committee Market / Country Report

(April-December, 2017)

The products like 620213200 and 611030014 have experienced substantial growth of 15.33% and 11.10% respectively during the period. Jersey pullover, T-Shirts, women/girls skirts shirts blouses and under garments of both men and women are the major product categories which are imported by Japan. Like other products, China, Bangladesh and Vietnam are the major suppliers, though India has a presence in these products with a share of less than 1 percent.

2.1.2 Top Products having negative growth in Japan market (Apr–Dec, 2017):

Major 9 products have experienced negative growth during April-December, 2017 as compared to the same period during 2016.

Table-3: Top Products having negative growth (Mn \$)

| Products | Descriptions | Apr-Dec, 2016 | Apr-Dec, 2017 | % Change |
|-----------|---|---------------|---------------|----------|
| 620193200 | Men's/boys anoraks and similar articles, of man-made fibres, not knitted: Other | 575.36 | 575.18 | -0.03 |
| 620342200 | Men's/boys trousers and shorts, of cotton, not knitted: Other | 617.11 | 570.55 | -7.55 |
| 620343200 | Men's/boys trousers and shorts, of synthetic fibres, not knitted: Other | 494.67 | 484.91 | -1.97 |
| 630260000 | Toilet & kitchen linen, of terry towelling or similar terry fabric, of cotton | 415.46 | 414.05 | -0.34 |
| 620520000 | Men's/boys shirts, of cotton, not knitted | 442.96 | 391.74 | -11.56 |
| 611596000 | Full-length or knee-length stockings, socks and other hosiery | 363.81 | 360.44 | -0.93 |

| Total | | 3942.60 | 3747.00 | -4.96 |

Source: ITC

All these 9 products have experienced negative growth during last five years prior to 2017.

3.0 India's Performance of T&A to Japan (Apr-Dec, 2017):

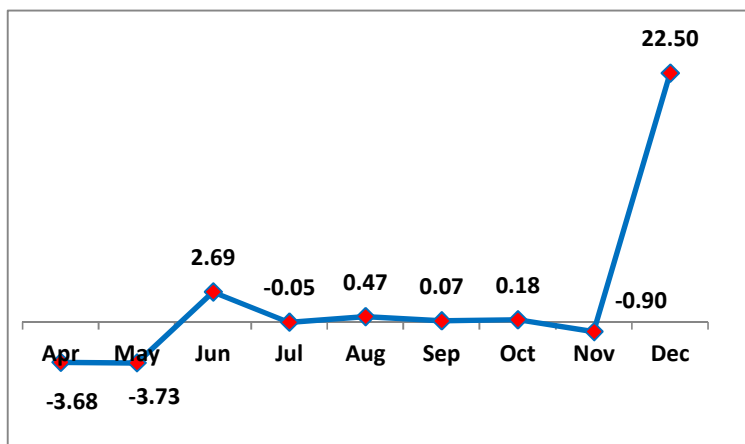

- The aggregate T&A export of India to Japan is \$420.40 Mn in 2017, out of which \$291.80 Mn was exported during Apr-Dec, 2017. Japan contributed about 0.92% to the aggregate export basket of T&A of India. It may be noted here that India's export has increased to \$291.80 Mn from \$289.28 Mn during the same period of the previous year with the 0.87% growth.
- India's aggregate export of Textiles & Made-ups to Japan (HS Chapter 50 to 60 & 63) was \$137.29 million during Apr-Dec, 2017, which is 0.94% of India's total textiles & made-ups exports to the world. The export of textiles & made-ups has experienced a negative growth of 1.19% during the period as compared to previous year.
- India's aggregate export of Apparels to Japan (HS Chapter 61 to 62) was \$154.51 million during Apr-Dec, 2017 which is 0.90% of India's total Apparel exports to the world. The export of Apparel has experienced a positive growth of 2.78% during the period as compared to previous period.
- Top 26 Products (whose share is more than 1%) has contributed 60.18 percent to the export basket in Japan market during Apr-Dec, 2017.

Table 4:
India's T&A Exports to Japan (Mn. \$)

| Month | April-December | | |
|---------|----------------|--------|----------|
| | 2016 | 2017 | % Change |
| Apr | 49.89 | 48.06 | -3.68 |

Source: ITC

Fig 4:
Change in the exports

Textiles Committee Market / Country Report

(April-December, 2017)

- India's export to Japan has experienced highest growth (22.50%) in December, 2017 as compared to the same period in 2016 and lowest growth (-3.73%) in May, 2017 as compared to the same period in 2016.
- It is worth to mention that even if Indian export of textile and apparel is experiencing zero tariffs under India-Japan CEPA, the minimal export indicates that Indian exporters are yet to capitalise the opportunities being created under the agreement in form of better market access.
- Some of the key attributes like Non Tariff Measures adopted by Japan in form of quality standards and other stipulations like labeling, etc could be the possible reason for the slow growth of export from India to Japan needs to be addressed for strengthening India's position as a major exporter of T&C in Japanese market.

3.1 India's Top Performing Products in Japan market (Apr-Dec, 2017)

The major 16 products out of top 26 products have experienced positive growth in India's export basket during April-December, 2017 as compared to the same period during 2016 are as follows:

Table-5: Top performing products of India (Mn. \$)

| Products | Descriptions | Apr-Dec' 2016 | Apr-Dec' 2017 | % change |
|-----------|--|---------------|---------------|----------|
| 620630210 | Women's/girls blouses and shirts, of cotton, not knitted | 25.91 | 27.29 | 5.34 |
| 510710090 | Yarn of combed wool, >=85% by weight of wool, not put up for retail sale | 11.37 | 11.62 | 2.17 |
| 620640210 | Women's/girls blouses and shirts, of man-made fibres, not knitted | 7.93 | 8.82 | 11.17 |

| Total | | 71.18 | 60.85 | -14.52 |

Source: ITC

Textiles Committee Market / Country Report

(April-December, 2017)

All these 10 products have experienced negative growth during last five years prior to 2017 except Toilet & kitchen linen, of terry toweling or similar terry fabrics, of cotton (630260000) and Men's/boys trousers and shorts, of cotton, not knitted (620342200), which have experienced positive growth during last five year except April-December'2017. It may be due to low demand for the products in the Japanese market as the export of the Rest of World has also experienced negative growth.

From the trend and composition of the Textile and Apparel export of India to Japan, it indicates that India is yet to avail full advantage offered by Japan in the IJCEPA agreement. Since, the Chinese export is declining in relative terms and there is a possibility for further acceleration of the trend due to rising cost of production in China, India should try to outpace the emerging countries like Vietnam and Bangladesh by fully availing the market access offered by Japan in form of Zero tariff.
